

Rich Garcia Portfolio

Burke & Herbert Bank Website

I reformatted the Online Banking Overview (which previously was just an image slider) into a much more visually appealing and mobile-friendly page with improved SEO. The mass of text seen in the second screenshot below was replaced with information nuggets that were much easier to view and digest quickly.

The screenshot shows the Burke & Herbert Bank website's Online Banking Overview page. The header includes the bank's logo, social media icons, a search bar, and navigation links. A main navigation bar highlights 'Online Banking'. A left sidebar lists various services. The main content area features a title, a sub-header, a paragraph, and four service cards with icons. The right sidebar contains a login section, a referral promotion, and a small business loan promotion.
